THE NEWS,

The intelligence from the Eastern States received yesterday by the Eliza Anderson is up to the 27th. No engagement of any importance has taken place since our last advices. The attack on Plymouth, however, in North Carolina, which was alluded to cursorily in our news by the Sierra Nevada, is given with fuller details. On the afternoon of the 17th, the Confederates commenced their attack on Fort Gray, a little distance above Plymouth, but were on the following day repulsed with considerable loss. Forts Williams and Wessels were then assaulted, but after three ineffectual attacks, the Confederates were obliged to retire, having suffered severely from the fire of the Federal gunboat Southfield. At this juncture a rebel ram made her appearance, having come down the Roanoke, carrying three small guns and on: 64 pounder, and immediately ran against the Southfield, which sank in a quarter of an hour. Thus relieved of the destructive shelling of the gunbout, the Confederates again rushed to the assault, and after various repulses succeeded in taking the place of the 20th, after four days' hard fighting The result was the capture of about 2500 men. The loss on the part of the Confederates, according to Northern accounts, was 1500 killed and wounded, although Southern statements put :he figure down at 300, a rather incredible story when the repeated repulses and the continual fighting are considered, Washington and Newbern were next to be attacked by the Confederates but as both these towns are better protected than Plymouth, the success of an assault will be extremely doubtful. The ram at Plymouth destroyed three gunboats, and at present commands the approaches to that place; but it cannot possibly reach Pimlico Sound or Pimlico river, on which Washington is California White and Red Angelica, built, although the despatches expect that it will act in connection with other rams at that place and Newbern. The Federal gun-boats will, therefore, at Washington have full play on the Confederate columns as they march to 'he assault. With Newbern, the case is different. Another ram lies up at Kingston, on the river Neuse, and unless met by some of the light draft monitors, when

she descends the river, may prove as destructive as the ram on the Roanoke. No further fighting has taken place since our last dates on the Red River. Some additional details are afforded of Banks' engagements at Shrevesport; but they give us but little of im ortance that has not been previously inferred. The Confederates, it appears lost about 3,000 men, and the Federals 2,000 in the six days' fighting. Banks has retired to Grand Ecore, about 95 miles farther down the river, until sufficient supplies and reinforcements are forwarded, when he will again, in conjunction with the gun-boats under Admiral Porter, make an advance. The only thing to be feared is the rapid falling of the river, which may necessitate a change of the base of operations from Grand Ecore to the town of Alexandria, situated about eighty miles further down the river, and possibly prevent the gunboats being able to co-operate. The possession of Shrevesport is, however, too important to be yielded up without a further struggle. It occupies a commanding point, almost on the boiders of Texas, and is but a short distance

from the boundary of Arkansas. The new Federal advance on Richmond seems likely to be leading to the converging line policy which proved so disastrous to the North in the early campaigns, enabling the Confederates to concentrate their forces and attack the enemy in Jetail. The rumor that Lee is retiring on the Confederate capital is couled by some of the decatebes: but if Burnside is advancing with 40,000 men by way of the Rappahannock, or ntending to ascend the James river, the Confederate 3 in dia, 57 General will have to fall back or risk being outflanked. This Burnside expedition may, nowever, prove a "blind" like a similar expedition projected by the Confedera es up the B. in dia, 1/2 " 2 cases Scotch Tweeds Shenandoah valley. If not, it argues a hazardous, but at the same time a vigorous policy on the part of Grant, and one which bound from its very boldness, to bring about the most decided issue to this, we believe, last advance of the army of the Potomac. Gold has gone up considerably since our last; at present, it stands from 179 to 181. A rumer of the most extraordinary character was in circulation in San Francisco to the effect that the Federal Government bad determined to impose an addition of 50 per cent. on all duties for 60 days—doubtle-s, with the view to raise suddenly a large amount of coin. We are inclined to believe, however, that the matter has got some way confused with the present revenue bill which has passed the House, increasing the duties the half of one per cent. From Europe there is nothing of importance.

the House by the School Committee. The bill, which is very long, appears to have been in great measure modelled on the Canadian School Action. It contains, however, some very peculiar clauses, which we lear will fail Fideliter, under the superintendence of Capt. Pike, pilot, and was taken alongside Messrs. to meet the expressed wishes of the public. Pickett & Co.'s wharf. The first clause appropriates from the rev-THE SCHOONER "SHARK." - Mr. Ring enue \$10,000 a year as a School Fund, the second clause levying a pol! tax of \$4 on every resident male adult between the ages of 21 and 60, who has resided six months in the Colony! This, taking the adult population at 5000, would produce an additional fund of \$20,000. This sum welld, however, be considerably reduced by the expense of collection, as it is proposed to give the collectors eight per cent, on the total amount. Another clause states that the schools "shall be conducted on strictly non-sectarian principles," but winds up by allowing elergymen of every sect to visit the schools at stated intervals and give religious instruction to children of their own faith. Certainly a noved rendering of "non-sectarian!" The bill also provides for the formation of school districts, and a Council of Public Instruction, to be appointed by the Executive, also for boards of School Trusteer, to be appointed in the same way. This last provision is highly objectionable, and will meet with the strong disapprovancy of the community. There is no more effectual way of interesting the people in school matters, than by allowing them to elect their own trust es. It is to be hoped that when the bill comes up in committee these objectionable chauses, in an otherwise good and useful measure, may be amended. vesterday applied to the Chief Justice for an second clause levying a poll tax of \$4 on avery resident male adult between the ages order to release Hughes, late master of the confiscated schooner Shark. McDonald vs. Vignolo.—This was a motion to dissolve an injunction obtained by McDonald to restrain the negotiation of cortain bills of lading of lumber shipped en board the Napoleon III, which bills of lading were made out to the order of Messrs. Fogg & Co., of Shanghai, a lien upon them being claimed by McDonald for alleged advances to the amount of \$6,600.

Mr. McCreight, instructed by Pearkes & Green, moved to dissolve the injunction. The Attorney-General, instructed by Mr. Drake, in support of the injunction.

The Speaker read the following commu-nication from His Excellency the Governor VICTORIA, V. I., May 3, 1864.

To the Hon. the Speaker and Gentlemen f the Legislative Assambly: Gentlemen,

To the Hon. the Speaker and centlemen of the Legislative Assambly: Gentlemen,— I have received from your Speaker a communication dated the 2nd inst., bringing to my notice the fact that a committee of the House had prepared a bill to institute and carry out a general system of education for this colony.

As I understand that the bill insquestion contains clause levying new taxes and permanently appropriating moneys out of the Gnancial scheme already laid before the Eouse, I beg to acquaint the House that I entirely concur in the policy of placing a matter so important to the community at large as education, upon a sound and satisfactory basis; and Fhave much pleasure in recommending the subject to the carnest consideration of the House.

I have the honor to be, Gentlemen, ollows:

particular description of lumber, which was to be selected by their super-cargo, Mr. Bachelder, a person of experience in the lumber trade. Fogg & Co. likewise instructed Yignolo that any advances he might make to the saw-mill proprietor in filling up the order must be made at his, Vignolo's risk, which he accordingly did. Several cargoes were obtained and shipped pursuant to these instructions, and the cargo in question was one of particular sizes of lumber required for ship-building purposes. Grennan & Cranner, of Utsalady mills, unable to fill the order without advances, obtained the requisite advances from Vignolo & Co. to an amount within about \$1,100 of the value of the cargo shipped per Napoleon III. Vignolo having made considerable advances on the lumber which was waiting shipment at the mills, was compelled to take an assignment of the charter of the vessel from Grennau & Co., and Mo Donald at an advance of \$7 per 1000 on the charter freight. The vessel when laden arrived at Esquimalt, and the bills of lading to Fogg & Co., and invoice were dedeposited by Grennan & Co. with McDonald, as Vignolo contended merely for the purpose of being handed over to him for transmission to China upon payment of the balance due on the cargo; and on that understanding Main, as Vignolo's agent, obtained the bills of lading from McDonald's clerk.

McDonald, however, contended that he had a lien on these bills of lading for a sun Mr. DeCosmos gave notice that at next meeting of the House he would move for information as to whether the Government had taked any stops to carry out the views of this House as expressed in certain resolutions passed this session, with respect to a reciprocity treaty with the United States.

PILOT COMMISSIONERS.

Mr. DeCosmos gave notice that at nex meeting of the House he would move for in-formation as to whether Commissioners have been appointed under the Pilot Act. THE SCHOOL BILL.

Mr. Duncan laid before the House the Education Bill, as prepared by the school committee.

The bill was adopted and ordered to be printed.

HAREWOOD RAILWAY COMPANY.

Mr. DeCosmos asked leave to present a petition from the Harewood Railway Comhad a lien on these bills of lading for a sum of \$6,500 alleged to have been advanced by him to Grennan & Co. upon the deposit of the bills of lading and invoice of the cargo valued at \$6,900. The bills of lading were demanded back from Main, who refused to part with them, but was willing to pay the balance due on the cargo. McDonald, there upon obtained an injunction to restrain Maines agent aforesaid from parting with the bills. The present motion was to dissolve the injunction. pany, asking leave to lay down a railway be-tween Mountain District and Departure Bay, ween Mountain District and Departure Bay, for carrying coal, passengers, and for other purposes of the company. The petition was signed by Horace. D. Lawcelles, J. J. Southgate and Sebright Green, Directors, and Nathaniel Jacobs, Secretary. Mr. DeCosmos stated that the Harewood Coal Company's grounds lay behind the Vancouver Coal Company's, and the object of the bill was to enable the company to construct their line across the Vancouver Company's grounds and the Government reserve. The hon, gentleman also laid before the House a copy of the bill, which was referred to the committee on Private Bills.

THE INDIGNATION SCHOOL MEETING. Mr. Franklin said he had had put in his hands a petition from a late public meeting presided over by the Mayor, and although there might be some parts of the petition, in the shape of some resolutions nassed at the meeting. he Vice Charcellor Sir William Page Wood of some resolutions passed at the meeting, which might be considered disrespectful to this House, he would, nevertheless, ask leave to lay it before the House.

Mr. DeCosmos asked how the hon. gentle-

Mr. Duncan objected to the petition being received. He took the word of the hon. gen-tleman that there was something disrespectful towards the House in it, and he thought it

The speaker said any hon, gentleman might read such a document, but it was competent in the House to pass a vote of censure on him (laughter).
Mr. Franklin said he thought he knew counts of the medic of conducting the hum. fore me of what is the correct and business like way of carrying on this business of insurance, I can have very little doubt it at it is conducive to the welfare of the concern, and it is legitimately promoting the objects of the association to make payments of this small character to persons who have already contributed to the fund and who have to be secured for the future as contributors. I think therefore, that the plaintiff is not entitled to the relief he asks. He does not come here for the benefit of the company at all, but upon the strict legal right, and I think the bill must be dismissed with costs. The other judges concurred.

The Speaker called for a vote as to whether the petition should be received.

The Speaker ordered the Report to be read.

The Richmend authorities are evidently puzzled as to the designs of Grant, information being constantly received of the marching and countermarching of his troops.

General Fizhulu Lee made his appearance in the neighborhood of Charles City Court House, with his cavalry force, estimated at from 3,500 to 6,000. The greater part of this force is composed of re-enlisted veterans, who have lately returned from recruiting forces in the immediate neighborhood.

NEWBERN, N. C., April 22.—The battle which had been going on at Plymouth, from the 17th to the 20th, resulted in the capture of the city by the enemy on the 20th, at moon, including General Wessel and 15,000 mm. The enemy obtained pessession of the town at eight o'clock in the morning. Gen.

A special says the people who are predicting an immediate battle in Virginia will doubtless be disappointed, unless Gen. Lepeither advances; in force or makes a demonstration towards Pennsylvania.

Reports are freely circulated that Grant and Stanton have quarrelled.

The Washington Chronitet his morning contains an authoritative denial of the report.

CAIRO.—April 21—Intelligence received by the despatch boat, Gen. Lyons, from Red River, states:—The Union forces took a number of prisoners, and killed and wounded more than the rehels did the day before, Banks fell back to Grand Ecore, on account of scarcity of rations, and sent a message to Admiral Porter, 150 miles above, to return with transports ontaining supplies. Carso, April 25.—Memphis advices dated the 22nd, any Forrest's entire force was marching towards Alabama followed by Grierson.

On the 21st, Grierson's cavalry had a sharp folt with a portion of Forrest's tropa near Hudsonville. The rebels retreated towards Jacktoon, passing through LaGrange, and leaving a number of prisoners, wagons, horses and males in our hands.

General Price evacuated Camden, Ark, and General Steels occupied the place.

Wastiknors.April 26.—The Etar this even ing says, we have information from the rebel lines as Iate as Friday morning, the 22nd, to the effect that Lee is not as reported moving towards the Shenandoah Valley, but is in his old position on the Rapidan. Such movements of his cavalry as were going on seemed to be in the nature of a reconomisance to ascertain Grant's purposes. Lee's arms is preparing for a sudden movement, but is seemigly disposed to wait for Grant to open and davelop his game.

The movements of our gun-bosts up the Rappahannock, caused apprehensions at Rephannock, caused apprehensions at Rephannock

Sr. Lours, April 24—The Republican's Red River correspondent of the 13th, says Gen. Smith's command began crossing the river opposite Grand Ecore that day for an overlaud trip to Vicksburg, it being underiver opposite Graud Ecore that day for an overlaud trip to Vicksburg, it being understood that Grant has sent orders to Smith to return to that place. Robel prisoners say they had 25,000 men in the recent battles; that they lost 3,000 in Saturday's fight and left their kitled and wounded on the field. Qur loss on Saturday was about 1 500. Our wounded were taken to Grand Ecore. The killed were left on the field, but it is reported they were afterwards buried by the cavalry. This correspondent says great dissatisfaction was expressed at Bank's generalship in the battle of the 8th. It was fought contrary to Franklin's plan. Both Franklin and Kanses of the shousing was received by a mercantile house here to day:

MR. JOHN COPLAND ATTORNEY AT LAW

SOLICITOR,

BUCKEYE MOWER

TO FARMERS: WE, WITH GREAT CONFIDENCE, offer the Buckeye Machine for this reason: Knowing it to be superior to any Mower for sale, and that it will sustain the reputation it has made for the past three years in surpassing any other Mower in the following respects: Mower in the following respects:

Being better Mude; much Stronger and more
burable; will Run Lighter; Cut much closer
with greater ease to the team, and no side draugh).

We can bring twenty Farmers to say the BUCKEYE is SUPERIOR to any Mower, to one who
can be found prejudiced against W.

The Buckey Mowers are of two sizes, cutting
if cet, and 4 feet 8 inches.

The "Buckeye" as a Reaper The important advantages which belong to the BUCKEYE as a mower are retained in the Reaper, and can be used either as a Mower of Reaper by attaching the Platform and Reel.

Though importing largely of them, we have been unable, for two years, to supply the demand.

They are better adapted to the wants of California Farmers than any Combined Machine for sale. It will adapt itself to every surface of ground, will run lighter and deliver its grain casier and better than any other Reaper. The Reaper's seat is directly over the axie of the Machine, i stead of being on the Platform, where it adds greatly to the draught.
